

NEW

ALL-MAKES WIPER COMPONENTS

Sprague Devices is proud to introduce a comprehensive range of All-Makes Wiper System Components, including **wiper motors, wiper arms, wiper blades, and linkage assemblies**. Our OE-quality products are designed to meet or exceed the performance of your original wiper system, ensuring reliability in all weather conditions.

Each wiper motor features a connector and mounting interface for seamless installation across most major truck makes and models (see listing on inside). Our wiper arms and blades deliver optimal windshield coverage, while our linkage assemblies provide smooth, dependable operation.

With over 80 years of expertise, Sprague is a name you can trust for innovative, high-performance solutions.

*Note: The last four digits indicate the length of the linkage assembly. For example, part number 451-3750 corresponds to a 37.5" assembly. Confirm the required length before placing your order to ensure correct part selection.

AFTERMARKET WIPER PRODUCTS

WIPER MOTORS

Sprague Devices provides premium OE-quality wiper motors built to withstand the toughest commercial vehicle conditions, delivering reliable performance in dust, precipitation, and extreme temperatures. Designed for easy installation, each motor includes connectors and mounting hardware for a hassle-free fit while maintaining your vehicle’s original wiper functionality.

WIPER ARMS

Sprague Devices offers high-quality, long-lasting wiper arms designed for durability and reliability in the harshest conditions. Engineered to meet OEM standards, our wiper arms provide exceptional performance and weather resistance, ensuring clear visibility when it matters most.

WIPER BLADES

Worn wiper blades can impair your visibility during bad weather. Sprague Devices makes it easy for you to replace and install the right wiper blades for your commercial application so that you can see clearly during rain, sleet and snow. Our wiper blades provide exceptional performance all-year round.

LINKAGE ASSEMBLIES

Sprague Devices provides a high-quality, convenient solution when a replacement is needed. Our complete linkage assemblies match OE performance, are easy to install and are customized for long-lasting durability.

WHY SPRAGUE DEVICES

ABOUT

Sprague Devices' products are built for the toughest weather. Since 1941, we've been engineering and manufacturing premium wiper solutions to ensure drivers maintain clear visibility in any condition.

Founded in Michigan City, IN by the Sprague family, we've grown into a global provider of reliable, value-driven wiper solutions, including wiper motors, blades, arms, linkages, and pivots.

For over 80 years, OEMs and drivers across industries have trusted Sprague Devices for application-specific quality and safety. Our specialty wiper systems not only meet but exceed OE performance standards, delivering optimal wipe patterns for tall, flat, and curved windshields—whether one or two pieces of glass.

As an industry leader in wiper technology, we continue to push innovation forward, providing cutting-edge solutions designed for durability, performance, and reliability.

WARRANTY POLICY

Our products are warranted against defects in workmanship and materials for a period of twelve (12) months or 100,000 miles from the purchase date, whichever comes first. For complete details, please see a distributor or call customer service.
